PEECOOL

BRAND GUIDELINES · V1.0 · PHASE 0

Every court.
Every point.

Identity, logo, colour, type and design system for the pickleball court management and scoring platform.

PROPOSED OFFICIAL PRODUCT BRAND · PENDING APPROVAL

Prepared for the Sonnet 5.5 implementation phase

What’s inside

01 STRATEGY

- Positioning, purpose, mission, vision
- Personality, audience, values
- Story, voice, taglines

02 NAME

- Why Peecool
- Candidates and checks
- Open concerns

03 LOGO

- The Bounce concept
- Full logo family
- Clear space, size, misuse

04 COLOUR & TYPE

- Palette sampled from the reference
- Themes, status, contrast
- Three-voice type system

05 DESIGN SYSTEM

- Space, shape, grid, breakpoints
- Graphic language
- Component visual language

06 IN THE PRODUCT

- Master System, Court Scoring, Open Play
- App icon, loading, marketing
- Accessibility, handoff, open items

Positioning

POSITIONING STATEMENT

For pickleball facilities that need to run many courts without losing a point, Peecool is the all-in-one management and scoring platform. Unlike booking-only tools or standalone scorekeepers, it runs on the facility's own network, so scoring never depends on the internet.

PURPOSE

Make every game at a facility count: accurately scored, fairly organised, easy to run.

MISSION

Give facilities one dependable system to run their courts, score every match and keep players moving.

VISION

The system facilities trust to run the game: pickleball first, ready for every court sport.

Personality, audience, values

PERSONALITY

COMPOSED · COMPETITIVE · PRECISE · QUICK · ORGANISED · WELCOMING

A professional sports-technology product, not wellness, retail or hospitality. The name's "cool" is composure under pressure: the calm of a well-run court.

AUDIENCE (BY ROLE IN THE PRODUCT)

- **Facility owners and managers** (Admin): run everything, see analytics
- **Front-desk and court staff** (Staff): operate courts, bookings, Open Play
- **Players**: see it on court devices and the TV board; not users
- **The integrator** (Elpisoft): deploys under the facility's own name

CORE VALUES

- **Accuracy:** every point can be corrected, nothing is lost
- **Speed:** one tap, live on every screen
- **Fair play:** transparent rules and rotations
- **Always on:** your network, no internet needed
- **Everyone's game:** readable, accessible, easy to learn

Keep your cool. Keep count.

STORY

Pickleball facilities fill up fast: a dozen courts, a front desk, a queue of players, and a score someone has to get right. Peecool began as the system behind that moment. One Master PC, every court in sync, scores that survive a dropped Wi-Fi signal, and Open Play that sorts itself. The “P” is for pickleball. The “cool” is what it gives a facility on its busiest night.

VOICE

- Short, direct sentences. Real numbers, no hype.
- Calm in errors: say what happened and what to do next.
- Friendly, never cutesy, inside the product. Playful only in marketing.

TAGLINE OPTIONS

RECOMMENDED

Every court. Every point.

Covers management and scoring in four words.

Keep your cool. Keep count.

Plays on the name. Best for marketing.

Run the whole facility. Score every point.

Call it. Count it. Run it.

Cool under pressure, point after point.

02 PRODUCT NAME

Peecool

PRONUNCIATION & MEANING

PEE · cool

P for pickleball, **cool** for composed. Two short syllables, easy to say across a noisy facility and easy to spell from memory.

WHY IT WAS CHOSEN

- Proposed by the project owner after **Ralvo** turned out to be an existing app.
- Cleared more checks than any other candidate: zero App Store matches; .com and .net confirmed unregistered; .app, .io and .ph looked unregistered (registrar check still needed).
- Not tied to one feature, so it can grow past scoring.

KNOWN CONCERN: READ THIS

- “Pee” is a common word. Expect jokes, and be ready for some buyers to find it too casual for a business product.
- Mitigation: the identity is serious (green, bold tabular numerals, checkmark symbol), the tagline leans on “cool”, and the co-branding rule puts the **facility’s name first**.
- Test it with two or three real facility owners before committing to print, signage or a domain purchase.
- Have a native Filipino speaker check for unintended meanings.

Candidates and checks

Screened on the US App Store (exact-name search), .com registration (RDAP), and web search. Not a legal clearance.

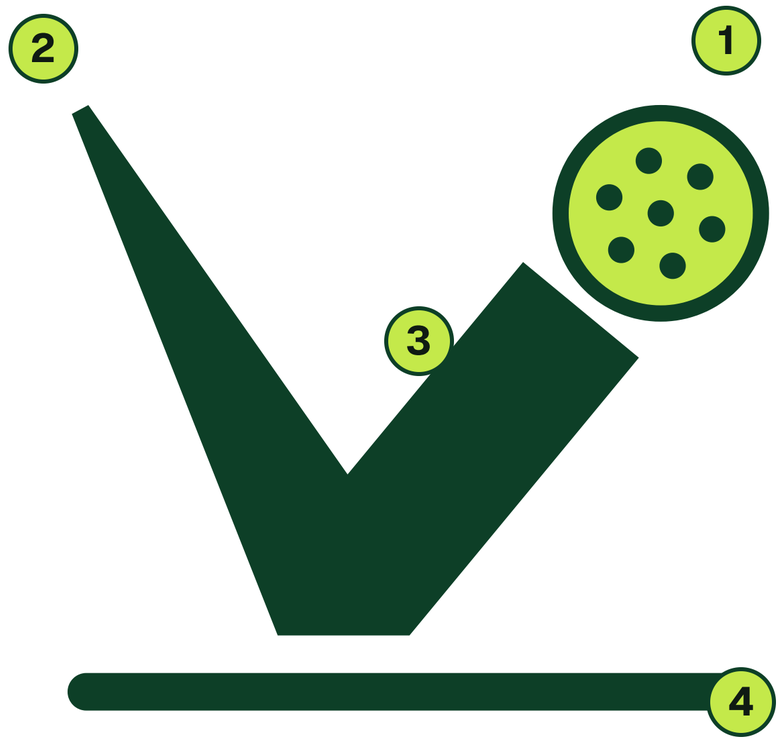

CLEARED THE APP STORE CHECK

NAME	IDEA	.COM
Peecool ★	P + cool: composure	**Unregistered**
Dovra	Coined, two soft beats	Registered
Vollo	Volley; near Volo Sports	Registered
Revra	Rev + rally	Registered
Dinkra	Dink + -ra	Registered
Kortra	Court, respelled	Registered
Zavro	Coined, punchy	Registered
Pavra	Paddle + -vra	Registered

REJECTED, WITH THE REASON

NAME	CONFLICT FOUND
Ralvo	Existing app (App Store: KAI R&D)
Sevra	Personal-trainer app on App Store and Google Play
Volaro	Airline fare software company
Kovra, Tavra	Existing apps under those names
Velto	Has a pickleball club app
Kortline	Sounds like Courtlines (club SaaS)
Laro, Sideout, Erne	Active sports or pickleball products

The Bounce

CONCEPT

A pickleball's bounce is the sport's signature moment: the two-bounce rule, the serve return, the point. The symbol draws that path as a **tapered trail, an impact on the court line, and a ball launching away**.

ANATOMY

1. **Perforated ball**
   rising from the bounce
2. **Motion trail**
   tapers like a ball in flight
3. **Check mark**
   the V also reads as a point confirmed
4. **Court line**
   the wordmark stands on it too

The logo family

Primary · logo-primary.svg

Secondary, stacked · logo-secondary.svg

Symbol · logo-icon.svg

App icon · app-icon.svg

Light, for dark backgrounds · logo-light.svg

Dark (ink), for lime and sage · logo-dark.svg

Monochrome, uses currentColor · logo-monochrome.svg

Favicon · 16 → 160 px · favicon.svg

Clear space and minimum size

Clear space = the ball’s diameter (27% of logo height) on every side

MINIMUM SIZES

VERSION	DIGITAL	PRINT
Horizontal	120 px wide	30 mm
Stacked	80 px wide	22 mm
Symbol	32 px	8 mm
Favicon form	16 px	n/a

Below the minimum, switch version: horizontal → symbol → favicon. At 120 px the wordmark cap height is 16.5 px and the ball about 9 px, so perforations are barely visible; that is intended.

Backgrounds and misuse

✓ Primary on cream, white, mint

✓ Light on court green 700–950

✓ Dark on lime, sage

✓ On photos: light version on a dark overlay

NEVER

✕ Stretch or squash

✕ Rotate or tilt

✕ Off-palette colour

✕ Primary on lime

✕ Shadows or effects

✕ Low-contrast background

Also never: rearrange the symbol and wordmark, outline the letters, retype the name in another font, or add a tagline inside the clear space.

Court green, rally lime

Sampled from the reference page (deep green #0D3F27, mid green #1A5435, leaf #41702E, lime, volt #FAFF45, cream #F8FFEF, mint #E8F4E7) and refined for screens. Lime is a fill, never text on light backgrounds (1.36:1).

Court 950 #06150D Dark bg	**Court 900** #082015 Deep surface	**Court 800** #0B2D1C Dark card	**Court 700** #0D3F27 PRIMARY	**Court 600** #1A5435 Raised	**Leaf 500** #41702E Banners	**Rally Lime** #C4E94A ACCENT	**Volt** #F4FB5A One per screen
Cream 50 #F8FFEF Light bg	**Surface 2** #EEF6E8 Raised	**Mint** #E8F4E7 Panels	**Sage 200** #CBD9C9 Frames	**Border** #D3E0CF Hairlines	**Muted** #46594C 7.5:1	**Ink** #0F1A13 17.8:1	**White** #FFFFFF Cards

Usage ratio: roughly 60% cream/white and neutrals, 30% court greens, 8% lime, 2% volt. Lime appears for the live moment, the serving team and primary actions on dark.

Themes, teams, status

SEMANTIC TOKENS · LIGHT | DARK

STATUS: COLOUR + ICON + LABEL, ALWAYS

Available · Occupied · Live · Paused · Completed · Maintenance · Inactive

VERIFIED CONTRAST (SCRIPT-CHECKED)

- All 54 token pairs and all 14 status pairs pass
- Body text 17.8:1 · muted 7.5:1 · primary button 11.95:1
- Team scores ≥ 7:1 on bg, surface and tint, in both themes
- Lime on cream 1.36:1 is a documented FAIL: never text

WHY TEAMS STAY BLUE AND ORANGE

Lime against orange is hard to separate with red-green colour blindness, and brand green must never be mistaken for a team. Teams also carry a name and a serving tag.

One family: Geist

DISPLAY · GEIST SANS REGULAR

Court 4 is open

Brand headlines, page titles, dialog titles, court names. Regular 400, tracking –0.03em, large sizes only.

BODY · GEIST SANS 400–600

Maria Peña & Niño Reyes

Tables, forms, labels, names. Latin coverage including ñ. 600 for emphasis.

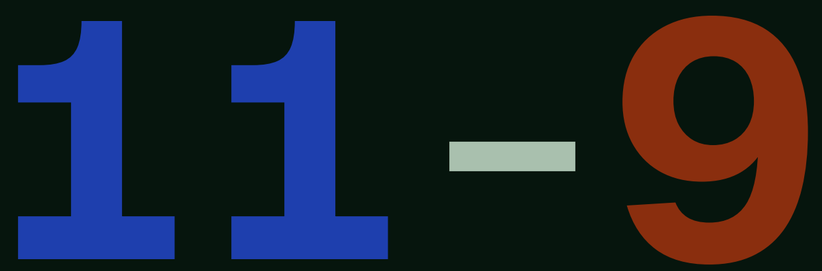

SCORE · GEIST SANS BOLD, TABULAR

11–9

Scores, timers, clock times, KPIs, ranks. Always tabular figures.

ROLE	FACE · WEIGHT	SIZE / LINE HEIGHT	TRACKING
Display · page title	Geist Sans 400	36–84 / 1.08 · 28–36 / 1.15	–0.03em · –0.02em
Section heading · body	Geist Sans 600 · 400	18–20 / 1.3 · 14–16 / 1.5	0
Overline · table head	Geist Sans 600, caps	12 / 1.3	+0.08em
Numerals · scoreboard	Geist Sans 700, tabular	28–120 / 1.0 · 48cqh / 0.9	0
Technical text	`Geist Mono 400`	13–14 / 1.5	0

Chosen by test, not taste

TEST (GEIST SANS 700)	RESULT
Tabular figures	**Digit-width spread 0** with `tnum`: 11 and 88 are the same width
Digit height	0.75 em → 48cqh gives 36% of screen height (target ≥ 30%)
Shape similarity (blurred)	Worst pair 6/8 = 0.79, against 0.87 for the condensed face considered earlier: **more distinct**
Width of two digits	1.27 em, 27% wider than a condensed face. Height-limited at 16:10; **width-limited at 4:3 (about 20% of height)**
Contrast	Team scores ≥ 7:1 in light and dark

Rule: below a 3:2 aspect ratio (for example an iPad in landscape) stack the team panels so digits stay large. Not yet verified: legibility at 5 m on a real tablet; the test simulates distance by blurring.

COURT UTILISATION TODAY

DENSE ADMIN SCREENS

- White cards on cream, hairline borders, 16 px gaps
- One hero KPI in court green per screen
- Numbers in Geist Bold, labels in Geist Regular
- The facility's name leads; Peecool credits quietly
- Lime only for live and primary-on-dark

Readable from the baseline

CONSOLE RULES

- Dark theme by default; light theme available for bright rooms
- Digits: Geist Bold, tabular, at 48cqh (36% of height), ≥ 7:1
- Team = colour **and** name **and** serving tag
- Lime marks the serving team and Live, nothing else
- Targets ≥ 64 px; ending a match is press-and-hold
- States to style: ready, setup, live, paused, game over, completed, locked while reconnecting

LOADING SCREEN

Dark court green, dot field fading out, symbol, lime progress bar. Ball bounce loop disabled under reduced motion.

WEBSITE & MARKETING

Geist Regular headlines on court green, one lime ticker, perforation dots. Product shots on dark.

Rules that keep it honest

ACCESSIBILITY

- Text contrast ≥ 4.5:1; scores ≥ 7:1 (WCAG 2.2 AA, as the spec requires)
- Status never by colour alone: icon + label
- Touch targets ≥ 44 px; console ≥ 64 px
- Focus ring: 2 px, 2 px offset, brand colour per theme (kept from the app)
- Reduced-motion honoured; the ticker and pulse stop
- Body text ≥ 14 px; 12 px only for overlines
- No information in hover-only states (tablets)

CONSISTENCY

- Spell it **Peecool** (capital P only) in running text; the all-caps wordmark appears only inside the logo
- Never abbreviate to “PC”: it collides with “Master PC”
- All clock times 12-hour (5:05 PM), set explicitly, never by device locale
- One status vocabulary across courts, matches, Open Play
- Tokens only: no raw hex in components
- Facility name first, “Powered by Peecool” second

Applying it to the existing app

WHAT EXISTS TODAY

- **Built:** Dashboard (live + Analytics tab with 7 reports, print, CSV), Booking Schedule, Court Management and scoring console, Game Histories, Players, Open Play with TV board, Users, Presets, Settings, Backups, Audit
- **No separate page:** Reports or Analytics (both are Dashboard tabs); Match Management (split across console, History, Match detail)
- **Not built:** recurring bookings, HTTPS, offline scoring queue, spectator display
- **Unverified:** Windows 11 install, real phones and tablets

RENAME AFTER APPROVAL

WHERE	WHAT
apps/web/index.html:12	Page title
manifest.webmanifest	name, short_name, theme
pages/Login.tsx:21	Hard-coded name beside icon
public/icon.svg	Replace with brand icons
packaging/ (3 files)	Installer, shortcuts, service name, firewall rule
server: cli, backup, server	CLI banner, error text, log line

DO NOT RENAME

- `@pickle/*` packages, repo folder
- `PICKLE_*` env vars, `X-Pickle` headers
- `pickle-*.db` backups: the restore pattern (backup.ts:12) would orphan every existing backup
- `C:\ProgramData\PickleScoring` data folder and service id `PickleScoring`: renaming strands data on installed machines
- `ps_theme` storage key

Unresolved before this is final

NAMING AND LEGAL

- **Formal trademark search** (USPTO, EUIPO, IPOPHL) by counsel: not done. Nothing here is legal clearance.
- Checked only: US App Store, .com RDAP, web search. **Not checked:** Google Play, Microsoft Store, social handles, other countries' stores.
- On 2026-11-01 peecool.com and .net were unregistered (Verisign); .app, .io and .ph looked free but need a registrar check. Register promptly if approved.
- The "pee" reading: test with real facility owners; ask a native Filipino speaker to check.

DESIGN AND PRODUCT

- Scoreboard legibility at 5 m on a real 10-inch tablet: **simulated only**
- The client facility's name and logo are not in the repo (the proposal says "[CLIENT / BUSINESS NAME]"): co-branding assumes "facility name first"
- Print colour (Pantone, CMYK) not yet specified
- The preview and slides show illustrative screens: no application screen was modified

NEXT: IMPLEMENTATION PHASE

- Adopt tokens.css in index.css; self-host fonts
- Swap icons, manifest, titles
- Restyle Shell and the 31 UI primitives
- Console, then Dashboard, then Open Play
- Keep `npm run check` and `npm run e2e` green throughout
